Calculating Electronic Time Recorder with Daily totals

This two-colour fully automatic digital time recorder complete with signal output, allows up to 6 clocking's per day for each employee or can be pre-set to 4 clocking's and show a daily and running total, depending on the format required. Capacity is set at 150 employees (60=daily total hours+next day overtime function, 130=daily totals without next day function or 150=without daily totals). The robust ABS plastic and multi-viewing positions for both vertical and horizontal mounting make this the ideal choice for a variety of work environments.
