Timemaster TM920

Electronic Time Recorder with Built-in Battery Backup

This reliable and compact time recorder includes all the hi-end technology required to meet your needs. A very cost-effective solution to record employee hours, with programming options for both weekly or monthly clock card formats and optional 2 colour printing to highlight tardiness and early departure. For additional peace of mind, the built-in backup battery has you covered in the event of power failure and the bolt-on relay is ideal for those also in need of a sounder to signal breaks and shift start/finish.
